Please indicate the most relevant research module for your project:

- Module 1:** "Sex/gender as a determinant of health"
- Module 2:** "Sex/gender in health care and clinical practice"
- Module 3:** "Sex/gender at the public health and policy levels"

If applicable, please indicate which research module(s) is/are also relevant for your project:

- Module 1:** "Sex/gender as a determinant of health"
- Module 2:** "Sex/gender in health care and clinical practice"
- Module 3:** "Sex/gender at the public health and policy levels"

Covering Notes

If applicable, response to Steering Committee's comments to pre-proposal and/or other introductory remarks.

Project Description

1 Research topic and objective of the project

- 1.1 State of research in the field
- 1.2 Personal contribution to research in the field
- 1.3 Detailed research plan and methods
- 1.4 Timetable and milestones

2 Implementation and practical application

- 2.1 Previous achievements
- 2.2 Activities planned
- 2.3 Implementation partners
- 2.4 Timetable and milestones

3 Significance

- 3.1 Scientific significance
- 3.2 Practical significance
